About

I am a Web Developer with a passion for the latest technologies and building accessible web applications.

I speak both code and people as a former HR professional, and through a decade of working in the industry, I've refined my organizational, communication, and time-management skills. This unique background allows me to create strategic web experiences that bridge the gap between users' and product owners' needs.

I now bring my passion and drive to web development, where I am constantly learning new languages and frameworks, while strengthening my skills in JavaScript, React, jQuery, HTML5, CSS3 and SCSS.

My work

TRAVEL FROM HOME – *React, Firebase, HTML5, SCSS* – [Github](#) | [Live](#)

- Image Gallery / Travel Journal Combo
- Uses Unsplash API and Firebase

FILM BUFF – *React, Firebase, API, HTML, CSS (Mob programming)* – [Github](#) | [Live](#)

- Website that lets the user search for a movie they know and find foreign films based on it
- Uses The Movie DB API and Firebase

TORONTO / VANCOUVER SKYLINE – *jQuery, SCSS, HTML5* – [Github](#) | [Live](#)

- A widget that was inspired by the breathtaking Toronto & Vancouver skylines
- Users are able to change both background and skyline images

MEDIEVAL ART MEME GALLERY – *jQuery, 2 APIs, SCSS, HTML5 (Pair programming)* – [Github](#) | [Live](#)

- An app that displays a random famous art piece along with a random dad joke
- Uses two APIs - The Cleveland Museum of Art API and Dad Jokes API

Relevant Experience

HUMAN RESOURCES SPECIALIST – mobileLIVE – Toronto, Ontario – 2010-2021

- Initiated a new software implementation plan that helped to automate HR procedures and reduced man-hours by approx. 35%
- Maintained HRIS and all HR files, conducted benefits and personnel files audits and transformed it into an organized and compliant system

DIGITAL MEDIA & OFFICE MANAGER – Momentum Montessori – Toronto, Ontario – 2018

- Managed LinkedIn and Facebook groups, promoted business Instagram account using SMM tools, analytics tools (Google Analytics), and graphic design software (Adobe Suite) to maximize follower growth and user engagement rates; used paid advertising services to increase the exposure of the brand and improve social media reach
